Thrissur: First Walk in Malabar Tamils or Malayalam Tamils, residents of Vellattam village have gone back to their homeland and settled in Thrissur for over a century. But an extraordinary instance of human scale against the scale of human catastrophe, is unfolding in the village. The trauma of ethnic cleansing is just as acute here as in other parts of Tamil Nadu. A Jigsaw Puzzle of My Life. 2/05/2007. I'm not sure which one of us I am, only that I am none of the two. Now how do I call myself? (Anjan thinks about it.) Good enough, that will do. Sasanian Politics of Nationhood and Nationalism. 11/26/2003. This paper is a historical analysis of the politics and history of Iran. The paper argues that Iran is a nation state that is free to choose its destiny. This paper is not a merely academic exercise. It is a call to renew Iran's ideology of nationalism, a call to empower and energize the nation-state in order to assert the boundaries and construct the future that we want for ourselves and for our descendants. If Iran has a mission, it is to create the conditions for cultural and economic flourishing and to give meaning to the lives of Iranians. If Iran has a goal, it is to be a true and equal partner in global affairs with Israel and the Arab world. In spite of the rise and the fall of the Ayatollahs, Iran has a democratic ideal of moderation and tolerance and the courage to pursue it in the modern world. Iran is currently in an uneasy political turmoil, which is the result of the social, political and economic conditions in the Islamic Republic. The middle class, the intelligentsia, and the youth are losing patience with the political leaders and are demanding change. This unrest has manifested itself through the rise of the Islamic Republic's opponents. These opponents range from liberal reformists to revolutionary Islamists. All of them believe that a democratic revolution is necessary and possible in Iran. The small group of reformists believes that the revolution can be attained through elections and the rule of law. The Islamists believe that a democratic government has been given power by a vanguard class of apostates and that the revolution must therefore be imposed by force and violence. This is a dangerous argument and a recipe for civil war. There are also those who think that the United States has a hand in all of this. 82157476af
