Love this game!!! For ladies who like a more mature type of romance, this is a great choice. For ladies that aren't into the bastard boyfriend trope, one of the routes might not be their favorite but they will still enjoy the sweeter guys' routes. If you are looking for an otome that plays out like a sexy romance novel, you will have a lot of fun with this game!!!. I love the twunk and how he exposes the idol industry. regret buying this game even tho i bought it on sale  
the girl has no pride whatsoever  
they easily fall in love  
simply boring as hell  
the characters are unlikable

Silver Creek Falls: Chapter 2 "**The Walsingham Files: Chapter One**" is out and it's Free to Play!:

# NEW MYSTERY

Hey everyone!

We're proud to announce that "The Walsingham Files: Chapter One" is now available for free on steam! We did it in the end!

I know we said before, during the announcement of "The Ghosts of Hackney Mills" that we were choosing not to move forward with "The Walsingham Files" project anymore, but thanks to a boom in the consulting wing of our business we were able to obtain the resources for us to be able to work on this project!

Check it out in the link below:

[https://store.steampowered.com/app/1045850/The\\_Walsingham\\_Files\\_Chapter\\_1/](https://store.steampowered.com/app/1045850/The_Walsingham_Files_Chapter_1/)

This probably comes as a little surprise for you all as we haven't really done much marketing or PR for this project and haven't released any games in a year. We've really been very busy and essentially working on this in our free time between other projects we're consulting for. Still, we were really excited about this project and kept working at it to be able to get it out for you all to enjoy!

"The Walsingham Files" will be an episodic mystery-adventure trilogy, much like Silver Creek Falls, and is actually a direct sequel to the Silver Creek Falls series. We implemented a lot of the new puzzle mechanics that we were discussing in the forums for "Ghosts of Hackney Mills" and we really feel that this is our most polished game to date. So please check it out and have a play and leave a review for us so we know how we did!

Keep being awesome!

ICYMI "Silver Creek Falls: Chapter 2" is now live and available for purchase early.

We did it! We got the game out on time! Actually we had it pretty complete a couple days ago but really wanted to hold back on

---

publishing to make sure the game was as bug free as we possibly could. Thank you so much for your patience and support, we really hope you enjoy the game!

We also have a deluxe edition which has the game + OST for chapter 1 + OST for chapter 2 for \$US 6.99.

We'd like to again thank those of you who wrote positive reviews and/or comments on our steam page and YouTube teaser page for helping the word spread. Every good review and comment helps towards getting more and more people to know about our game and in turn helps us get more feedback and support to be able to keep making these games.

Also, a big shout out to Let's Players, you're all doing an awesome job with the game and we invite you to continue your adventures with the new chapter. An important note for Let's Players, there is a group exclusive just for you! It basically includes some tips on screen recording software that does and doesn't work well with the game and other general things to make your lives easier! Just add the developer CarloAntonio.

. **"The Ghosts of Hackney Mills" Now Available:**

Hi Everyone!

It's done! "The Ghosts of Hackney Mills" is now out on Steam! We know it's been a while since we released a mystery-adventure game but we've done it. Just in time for Thanksgiving too!

Now this title is a bit more experimental and bold than the "Silver Creek Falls" series and takes a few risks in how did things and how we set up the puzzles. It's a trickier game than "Silver Creek Falls" but we know you will work it out!

So please pick up a copy for you to enjoy in the upcoming holidays and keep being awesome!
